

Agricultural.

The Bug on the Potato.

In several late private letters to us, mention is made of a bug, about the size of, or perhaps a little larger, than the rose bug, with black wings and a light scarlet or orange colored body, which infests the potato vines to such an extent, as to strip them completely of their leaves, causing them to turn yellow and decay.

This appears to be a new enemy of the potato, and we are apprehensive may turn out to be quite a formidable one, as without the support of the leaves, the vines must naturally die, and with them the unripe tubers must rot or become in a great measure worthless.

We notice in a small patch of potatoes on our own premises, many of these bugs, and their depredations on a few rows of "Wild Mexican Potato," are particularly marked—the vines falling in a decayed state, flat upon the ground. We have seen no remedy for this bug suggested, but we should suppose that wood ashes or powdered lime would be a protection, if dusted over the vines in the morning, while the dew was upon them.

A farmer in Cecil county, Maryland, sends a communication to the *Baltimore Weekly Sun*, under date of 11th inst., respecting this bug, in which he says—

"In my patch of five acres, I noticed this morning a place of one hundred square yards, where the vines were completely stripped of their leaves, and the bugs, as fast as they consumed the leaves, would leave for the fresh one's, scattering in every direction, and from appearance, will in a few days destroy the whole patch or at least change its appearance from a beautiful and thrifty green color to naked and yellow vines."

We fear the depredations of this new enemy are wide-spread, and may seriously affect the crop. The early planted crop has fared the best and as a protection to the late planted, we would recommend a trial of the ashes or lime. We have found these to be a complete remedy against the bug that is so destructive, at times, of the pumpkin, squash, melon and cucumber.—*Germanstown Telegraph.*

To Preserve Eggs.

Some of your correspondents inquire about the best method of keeping eggs fresh; and as we have a plan here which I have not seen mentioned in any of the replies which have been given to these inquiries, I send it to you, particularly as I find it better than any I have seen mentioned.—Take half inch board of any convenient length and breadth, and pierce it at full of holes (each 1½ inch in diameter) as you can without risking the breaking of one hole into another—I find that a board of two feet six inches in length, and one foot broad, has five dozen in it, say twelve rows of five each; then take four strips of the same board, of two inches broad, and nail them together edgewise into a rectangular frame of the same size as your board; nail the board upon the frame, and the work is done, unless you choose, for the sake of appearance, to nail a beading of three quarters of an inch round the board on the top; this looks better, and sometimes may prevent an egg from rolling off. Put your eggs in this board as they come in from the poultry-house, the small end down, and they will keep for six months, if you take the following precautions:

—Take care that the eggs do not get wet either in the nest or afterwards; (in summer, hens are fond of laying among the nettles or long grass, and any eggs taken from such nests in wet weather, should be put away for immediate use;) keep them in a hot cool room in summer, and out of the reach of frost in winter, and then, I think, the party trying the experiment will have abundant reason to be satisfied with it.

I find there are some in my larder which I am assured have been there near eight months than six, and which are still perfectly fresh and good; in fact it is the practice here to accumulate a large stock of eggs in August, September and October, which last until after the fowls have begun to lay in the spring. If two boards are kept, one can be filling, and the other emptying at the same time.—This is an exceedingly good plan for those persons who keep a few fowls for the supply of eggs to their own family; but would perhaps not do so well for those who keep a large stock of hens, as it would take up too much room.

I have endeavored to account for the admirable way in which eggs keep in this manner, by supposing that the yolk floats more equally in the white, and has less tendency to sink down to the shell, than when the egg is laid on one side; certain if the yolk reaches the shell, the egg spoils immediately.

Will some of your correspondents favor me with their opinion?—*English Agricultural Gazette.*

Ploughing.

In ploughing for your principal fall grain crops, plough deeply—8 or 10 inches will prove beneficial. Don't be alarmed at turning up a little poison with the subsoil.

\$500 CHALLENGE.

Whatever concerns the happiness and health of a people is at all times of the most valuable importance. I take it for granted that every person will do all in their power to save the lives of their children, and that every person will endeavor to promote their own health at all sacrifices. I feel it to be my duty to solemnly assure you that worms according to the opinion of the most celebrated Physicians, are the primary causes of a large majority of diseases to which children and adults are liable; if you have an appetite continually chargeable from one kind of food to another, Bad Breath, Pain in the Stomach, Picking at the Nose, Hardness and Fullness of the Belly, Dry Cough, Slow Fever, Pulse Irregular—remember that all these denote worms, and you should at once apply the remedy:—

Hobensack's Worm Syrup.
An article founded upon Scientific Principles, compounded with purely vegetable substances, being perfectly safe when taken, can be given to the most tender Infant with decided beneficial effect, where *Dysentery*, *Diarrhea*, and *Colic* have made them weak and debilitated, the Tonic properties of my Worm Syrup are such, that it stands with, out an equal, in the catalogue of medicines, in giving tone and strength to the Stomach which makes it an infallible remedy for those afflicted with Dyspepsia, the astonishing cures performed by this Syrup after Physicians have failed, is the best evidence of its superior efficacy over all others.

The Tape Worm!
This is the most difficult Worm to destroy of all that infest the human system.—It grows to an almost indefinite length, becoming so coiled and fastened in the Intestines and Stomach affecting the health so sadly as to cause St. Vitus Dance, Fits, &c. that those afflicted seldom if ever suspect that it is Tape Worm hastening them to an early grave. In order to destroy this Worm a very energetic treatment must be pursued, it would not be proper to take 6 or 8 of my Liver Pills, as as to remove all obstructions, that the Worm Syrup may act direct upon the Worm which must be taken in doses of 2 Table spoon's full 3 times a day, these directions followed, have never been known to fail in curing the most obstinate case of Tape Worm.

Hobensack's Liver Pills.
No part of man is more liable to disease than the Liver, it serving as a filter to purify the blood, or giving the proper secretion to the bile; so that any wrong action of the Liver affects the other important parts of the system, and results variously, in Liver Complaint, Jaundice, Dyspepsia, &c.—We should, therefore, watch every symptom that might indicate a wrong action of the Liver. These Pills being composed of *Rhubarb* and *Plum* furnished by nature to heal the sick; namely 1st, An *Expectorant*, which augments the secretion from the Pulmonary mucus membrane, or promotes the discharge of secreted matter. 2d, An *Alterative*, which charges in some explicable and insensible manner, the certain morbid action of the system. 3d, A Tonic, which gives tone and strength to the nervous system, renewing health and vigor to all parts of the body. 4th, A Cathartic, with other ingredients, operating on the Bowels, and expelling the whole mass of corrupt and vitiated matter, and purifying the Blood, which destroys disease and restores health.

To Females.
You will find these Pills an invaluable medicine in many complaints to which you are subject. In obstructions either total or partial, they have been found of inestimable benefit, restoring their fractional arrangements to a healthy action, purifying the blood and other fluids so effectually to put to flight all complaints which may arise from female irregularities, as head ache, giddiness, dimness of sight, pain in the side, back, &c.

None genuine unless signed J. N. Hobensack, all others being base imitations! Agents wishing new supplies, and Store Keepers wishing to become Agents must address the Proprietor J. N. Hobensack, No 120 N. Second st., Phila., Pa.

Cure of Consumption,
Liver Complaint, Colds, Coughs, Asthma, Bronchitis, and all Throat and Lung Complaints.

I have published a brief work on Consumption, which contains an invaluable recipe for the cure of these prevalent diseases, even in their worst stages, when friends and physicians have given up all hope. The *Lung Balsam* prescribed in this work cures without the expensive aid of physicians or injurious use of patent medicines. In adopting this *System of Cure* the patient knows what he is using—knows that he is not shortening his days by the use of anodynes or mercurials which may seem to relieve but never Cure. He knows when using this *Life saving Balsam*, that he is taking mild, pleasant, efficacious remedies, such as *Nature* prescribes, for the ill he children suffer. The ingredients composing this *Lung Balsam* are obtainable (cheaply too) wherever consumption exists, proving that *Every ill has its antidote*. Consumptive patients may rely on this recipe.—(All Lung Complaints are removed by its use)—I would not attach my name to it, had I doubt of its efficacy. The directions for preparing and using the Balsam are perfectly plain. I prefer selling the Recipe to making the Balsam, as it enables people to Make their own Medicine at a trifling Cost. I will impart the secret of making the Balsam, and the Family recipe to use it, for \$1, but in no case will I sell it for speculating purposes.

Proof of its Goodness.

JACKSON, Mich. March 21, 1851.
Doct S. TOUSEY—Sir: You wished me to let you know what effect your preparation of Medicine for Consumption and other diseases had in my family. After the first day, my wife gained in weight 2 lbs, relieved her cough, changed her countenance, and all appearances were better. My family would not be willing to do without it. It is a medicine much needed in Jackson—there is many cases similar to my wife's. The Rev Mr. Blanchard will write you for a recipe. Respectfully yours, O. F. POOL.
Address, post paid, (enclosing \$1.) Dr. S. TOUSEY, 108 Nassau street, New York.—The work goes by mail under seal.
October 7, 1851—Gm

STAGE LINES.

The Stroudsburg and Easton mail line of stages, consists of excellent four horse coaches, and leaves J. J. Postens' Indian Queen Hotel, Stroudsburg, Pa. every day (except Sundays) at 7 o'clock A. M. arriving in Easton before the departure of the cars for New York, or stages to Bethlehem and Allentown.

The following lines leaves Postens' Indian Queen Hotel, Stroudsburg, Pa. every Monday, Wednesday and Friday, returning on alternate days:
A line to Port Jervis, leaving at 7 o'clock A. M. via Bushkill, Dingman's Choice and Milford. Returning, leaves Port Jervis immediately after the arrival of the morning train of cars to New York, at about 8 o'clock A. M.

A line to Mauch Chunk, leaving at 7 o'clock A. M. via Brodheads, where it connects with lines to Wilkes-Barre and White Haven.

A line to Scranton, leaving at 4 o'clock A. M. via Bartonsville, Tannersville, where it connects with a line to Honesdale, and connecting at Scranton with the cars for the west.

These lines hold out strong inducements to the traveling public—passing through sections of the country which are as magnificent and picturesque as any in the Union. Having provided themselves with excellent coaches, good horses, and careful drivers, they feel confident that they will be enabled to give entire satisfaction to all who will patronize them.

STOFFER & OSTRANDER, August 19, 1852. Proprietors.

A SURE REMEDY FOR WORMS.

The testimony in its favor is overwhelming. The proprietors are daily in receipt of letters and certificates, going to prove its remarkable efficiency to all cases of worms, both in children and adults. The relief given, and the immediate improvement of health which follows its use, has called the attention of physicians to this article, and they freely recommend & prescribe it in their practice. The retail price is 25 cents per vial which brings it within the means of all.

Brooklyn, L. I. January 16, 1847.
I do certify that I gave one bottle of B. A. Fahnestock's Vermifuge to my child, and in seven hours it passed 23 large worms. Any person doubting this may apply for further information at my residence corner of York and Jackson st's.

JAMES McCARTHY.
Poughkeepsie, N. Y. March 2, 1844.
I certify, that I took two vials of B. A. Fahnestock's Vermifuge, which I found to be the greatest cure for worms I have ever used. I have been troubled with tape worms for a number of years, and I have never found so good a medicine as B. A. Fahnestock's Vermifuge. I therefore recommend it.

MARTHA CLIFT.
The public is cautioned against counterfeits and spurious articles, and to put no confidence in statements that "Kohlstock's," and "S. Fahnestock's Vermifuge," are the same or as good as the only genuine article, which is B. A. Fahnestock's Vermifuge.

For sale in Stroudsburg, by T. Schoch

Stroudsburg Jewelry Store.

The subscriber having purchased the entire stock of Clocks, Watches, Jewelry, &c. of John H. Melick, intends carrying on the Watch Making and Jewelry business in all its various forms, and in a manner, he trusts, that will give the most entire satisfaction, not only to himself but to those trusting the above mentioned articles with him to be repaired. He has renewed his stock by recent purchases in the city of New York, which, together with his former stock, makes his assortment at this time one of the most splendid ever before offered in Stroudsburg; among which may be found all the latest fashions in the structure and embellishment of dress Jewelry, viz: Breast Pins, Ear Rings, Finger Rings, Gold Lockets, Snaps, Bracelets, Slides, Silver Spoons, Butter Knives, and Britannia Ware, together with a large assortment of Gold and Silver Watches, Clocks, Perfumery, &c., together with all the articles that can be found in any establishment of the kind.

Watch Repairing

To whom it may concern—To the intelligent the thoughtful, the philanthropic. Your attention is respectfully invited to a new, original, peculiar, and important work, of 480 pages 18 mo., and containing nearly one hundred engravings, and entitled,

ESOTERIC ANTHROPOLOGY.

BY T. L. NICHOLS, M. D.

PRINCIPAL of the American Hydropathic Institute, Educational and Therapeutic, at Portchester, N. Y., one hour's distance from New York city on the New York and New Haven Railroad. A comprehensive and confidential Treatise on the Structure, Functions, Passions, Attractions and Perversions, True and False Physical and Social Conditions, and the most intimate Relations of Men and Women.

The title, Esoteric Anthropology, will seem strange to many, but it is thoroughly appropriate. Anthropology is from *Anthropos*, a man, and *Logos*, a description. Esoteric, from *Eso*, within, signifies private, secret, interior, and was used by the ancient philosophers to distinguish their private lectures, given in the interiors of their dwellings, upon the sacred mysteries of science and philosophy, to their chosen disciples, from their *Exoteric* discourses, which were given to the public. *Esoteric Anthropology*, is, therefore, a private treatise on Human Anatomy, Physiology, Therapeutics and Oesthetics—on the whole science of man—plain in language, full and faithful in illustration, and written with all the frankness of a private letter, under the seal of professional confidence. It contains the highest and deepest truths in every department of Human Physiology, with their individual and social application; the true nature and hidden cause of Disease; the conditions of Health, physical and spiritual; all that information which every human being needs, which few dare ask for, or know how to obtain, but which, amid the discordances and depravities of civilization, is of priceless value.

There are many subjects connected with the broad science of Human Life, of the deepest and most vital interest to man and the race, in regard to which a terrible ignorance every where prevails; an ignorance which is destroying the healths, shortening the lives, and sacrificing the happiness of millions—such threats the power of nations, and the perpetuity of races.

Professional works on Physiology are dry, mechanical, or chemical, astonishingly ignorant, as well as technically incomprehensible. The popular works are superficial, meager, and necessarily wanting in the most important matters. The quick books are full of errors, false in science, absurd in philosophy, mischievous in morals, and basely mercenary in their motives. In most cases these books are the advertising medium of some specious charlatan, who wants patients, or letters of consultation, or who has some instrument to sell, or some nostrum to palm off upon the credulous.

The world has need of a different book from any of these—a book as has never been written, and as cannot now be published in the usual way, sold by booksellers, hawked by agents or peddlers. The author of *Esoteric Anthropology*, a Teacher, a Physician, a public and private Lecturer on all branches of Medical Science, has written this book with a frankness he never could have used in a work for the public, or one open to criticism. It is for his pupils and patients, for intelligent men and women, who wish to understand the deepest mysteries of life; especially it is for the noble and heroic few, who are brave enough to examine and accept new truths, and wise enough to profit by them. There can scarcely be any important question, which any man or woman can ever need to ask a physician, to which this volume does not contain an answer. It is so complete in this respect, that the author hopes and believes that no one who reads it will ever need to trouble himself with a professional consultation. It is henceforth his chosen method of medical instruction and practice, and in it he has performed the duty he owes mankind as a healer of the sick, a preserver of health, and a teacher of the Laws of Life.

Among the subjects treated of in this work, are the following: Man, and his relations to the Spiritual and Material Universe; Human Anatomy; the Chemistry of Man; Principles of Physiology; and the Active Forces of Nature. These Three Groups of Functions, Organs, and Processes of Reproduction, and the Processes of the Condition of the Human Body, are treated of in a full and complete manner, and all its complex organism, made plain and intelligible.

2. A full account of the functions of life, with such an illustrated description of the evolution of the embryo, as has not before been given.

3. All that is known of health and disease, with the means for the preservation of the former, and the cure of the latter.

4. So careful an explanation of the whole process of gestation and childbirth, as will enable every woman to dispense with the services of a physician or professional midwife.

ESOTERIC ANTHROPOLOGY is plain and simple in language, full in illustration, as comprehensive as the utmost curiosity can wish, and without one tinge of quackery, or the remotest hinting at a fee.

It must be evident that such a book, written with the necessary freedom, and illustrated with fullness and fidelity, must not be prepared. It is not for the counter, the book-stall, the library shelf, or the center table. It is not to be offered for curious examination, nor urged upon those who can not appreciate its value. It is advertised, that every one who needs it may obtain it, if he will. Whether the social proprieties be true or false, the author can not violate them, and he feels compelled to keep this book truly esoteric, a private work, to be sent as a confidential answer to a professional consultation, and he trusts that no person will apply for it who will not make it a point of honor to so consult it.

To all such persons it will be sent BY MAIL, to any designated address, POST PAID, on the receipt of One Dollar, sent free of postage, to T. L. NICHOLS, M. D. Portchester, N. Y.

Stroudsburg, April 15, 1852.—1y

Mutual Fire Insurance Comp'y.

The rate of Insurance is one dollar on the thousand dollars insured, after which payment no subsequent tax will be levied, except to cover actual loss or damage by fire, that may fall upon members of the company.

The net profits arising from interest or otherwise, will be ascertained yearly, for which each member in proportion to his, her, or their deposit, will have a credit in the company. Each insurer in or with the said company will be a member thereof during the term of his or her policy. The principle of Mutual Insurance has been thoroughly tested—has been tried by the unerring test of experience, and has proved successful and become very popular. It affords the greatest security against loss or damage by fire, on the most advantageous and reasonable terms.

Applications for Insurance to be made in person, or by letters addressed to

JAMES H. WALTON, Sec'y.

HORSES MADE SOUND BY THE

Horse Owner's Secret,

Being a new and certain remedy for the speedy

Cure of Heaves,

By SIR JAMES LYNDONTON,

Principal Farrier to his Royal Highness Prince Albert.

THE great discovery contained in this little work procured Sir James his Baronetcy. It is really worth its weight in gold to all who own or use Horses. It prescribes a certain and positive cure for Heaves which any person can prepare. The remedy is better and cheaper than any advertised Heave Powder, and is perfectly safe, as any one can know who tries it. Horse owners know that many a valuable Horse loses half its price by this prevalent disease. The remedy prescribed in this work will cure him and increase his market value, besides relieving the poor beast of a horrible complaint, similar to the Asthma in a man. The public can depend on this work; it is no catchpenny humbug. The articles prescribed by Sir James are all cheap and can be had at any store. To prevent imposition the work will be sent in sealed envelopes. English price four shillings and three pence sterling—American price, \$1 per copy. Persons ordering Sir James' Work, are expected to confine his instructions to their own animals.—It will be sent to none others.

An American Horse Doctor approves of the above System! Read what he says:

APPLETON, Ohio, July 21, 1851.

Mr. DUNBERTON—I have tried your Secret for the cure of Heaves, and approve of it very much.

Yours, truly,

[Witness, G. Long.] S. LAKE, Horse Dr.

To procure this valuable little work. Address, post paid,

JOHN DUNBERTON,

English Horse Doctor,

American Agent for James Lyndontons' Horse Owner's Secret.

New York Post Office.

The Secret is sent by mail letter postage

LIVER COMPLAINT, Jaundice, Dyspepsia, Chronic or Nervous Debility, Diseases of the Kidneys,

and all diseases arising from a disordered Liver or Stomach, such as a constipation, inward piles, fullness or blood to the head, acidity of the stomach, nausea, heartburn, disgust for food, fullness, or weight in the stomach, sour eructations, or weight in the head, hurried and difficult breathing, fluttering at the heart, choking or suffocating sensations when in a lying posture, dimness of vision, dots or webs before the sight, fever and dull pain in the head, deficiency of perspiration, yellowness of the skin & eyes, pain in the side, back, chest, limbs, &c. sudden flushes of heat, burning in the flesh, constant imaginings of evil and great depression of spirits, can be effectually cured by

Dr. Hoofland's celebrated German Bitters

PREPARED BY

Dr C M Jackson,

at the German Medicine Store, 130 Arch st. Philadelphia. Their power over the above diseases is not excelled—if equaled—by any other preparation in the United States, as the cures attest, in many cases after skillful physicians had failed.

These Bitters are worthy the attention of invalids. Possessing great virtues in the rectification of diseases of the Liver and lesser glands, exercising the most searching powers in weakness and affections of the digestive organs, they are withal, safe, certain and pleasant.
